

CHEMISTRY, CHEMICAL ENGINEERING AND MATERIALS SCIENCE

WHDA's chemistry, chemical engineering and materials science team includes former patent examiners as well as engineers for international chemical corporations. Our attorneys use their years of real-world experience to help clients achieve their objectives. This vast knowledge is coupled with an understanding of the latest technological and legal developments, resulting in a skill set that is instrumental for providing applicants with broad protection balanced against future uncertainties. Examples of technical expertise include:

- › Agro chemicals
- › Polymers
- › Plastics, resins, adhesives, coatings
- › Petrochemicals, refinery processes
- › Catalysts
- › Ceramics
- › Crystals, liquid crystal compositions
- › Batteries, electrodes
- › Green chemistry
- › Alloys
- › Capacitors
- › Electroluminescence
- › Magnets
- › Metallurgical products
- › Ink compositions, pigments
- › Resist coatings
- › Semiconductors
